# Progress Solar™ Light Tower (SLT™ Series)

The Progress Solar™ Light Tower (SLT™ Series) is a series of rugged, mobile light systems that provide high-intensity, bright white lighting on-demand, where and when you need it. Each model offers 2 independent solar off-grid systems that are durable and built to perform; they are equipped with premium quality solar power arrays (600w, 800w or 1200w options); high-lumen LED flood lights; and large, long-life, deep-cycle battery banks (flooded or AGM, no maintenance options). The light towers are fully adjustable from 12-30ft in height, able to tilt up/down and rotate 360 degrees. The solid-state LED flood lights provide a tremendous amount of light with very little power required; instant-on/off with no flickering; extremely reliable, vibration and shatter resistant; and designed to provide up to 5x longer run time between changes than metal halide lights. The maximum power point tracking solar controllers protect the batteries from over/under charging and the lights can be automatically timer controlled to turn on/off with manual override capabilities. The systems are in industrial quality housing on a portable trailer that can be easily towed to its destination.

- **No Noise or Diesel Smell – Just Great Light, Complete Silence and Fresh Air!**
  - **No Diesel Fuel Required – Eliminates Expensive Fuel Costs & Time Consuming Trips**
  - **No Limits – Built for Light-On-Demand for Applications Requiring a Durable Solution**
  - **No Engine Maintenance – Convenient, Saves Time & Money**
  - **No Frequent Light Bulb Changes – LED Lights Last up to 5x Longer than Metal Halide**
  - **No Fossil Fuels (Carbon Dioxide) – Just Free, Renewable Energy From The Sun!**
  - **No Financial Downside – Competitive Price – Significantly Reduced Operating Cost -**
- Great Federal & State Solar Incentives May Apply**

## **Ideal for**

### **Night Time Operations or Outdoor Events**

Military Operations – Disaster Recovery – Mining – Oil & Gas - Utilities

Sports – Recreation - Camp Sites – Golf – Raceways

Construction & Work Sites – Airports - Security & Emergency – Temporary Parking

**Anywhere a Light-On-Demand Application is Needed**
